

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MAPFRE AM – CAPITAL RESPONSIBLE FUND (the “Sub-fund”) – Class R - EUR – a Sub-fund of MAPFRE AM (the “Fund”) ISIN: LU1860585428

The Fund is managed by Waystone Management Company (Lux) S.A. (formerly MDO Management Company S.A.)

Objectives and investment policy

The objective of the Sub-fund **MAPFRE AM - CAPITAL RESPONSIBLE FUND** is to provide balance between long term capital growth and protection of capital by the construction and management of a balanced portfolio of European equities and bonds. The investment process incorporates a framework to analyze the environmental and social impact of the entity related to the investment, as well as its governance. The goal is to favor companies and entities having a sound ESG (environment, social, governance) strategy as the managers believe that this gives a better risk return profile.

The Sub-fund intends to hold a diversified portfolio, both in terms of sectors or countries, but without pre-commitment to hold minimum or maximum levels in certain sectors or countries. The Sub-fund will invest in equity and fixed income assets of SRI (Socially Responsible Investment) compliant European public and private entities. Selection of assets will strive to comply with commonly recognized SRI standards. Fixed income investments will include government or corporate debt securities both with an investment grade credit rating (a rating of not less than BBB- by any of the well-known rating agencies). Up to 10% of the Sub-fund's net assets may be invested in deposits.

The Sub-fund will invest a maximum of 50% of its assets in equities. Up to a maximum of 30% of the Sub-fund's net assets may be invested in debt instruments issued by EU Member States or Supranational Entities with at least an investment grade rating and complying with SRI criteria.

The Sub-fund may invest in below investment grade fixed income instruments if, at the time of investment, the credit rating of the issuer

is investment grade (a rating of not less than BBB- by any of the well-known rating agencies). This type of investment shall at no point in time amount to more than 10% of the Sub-fund's assets.

The Sub-fund may invest up to 10% of its net asset in shares or units of UCITS and other UCIs and may not invest in UCITS or other UCIs that are managed by the Investment Manager or an affiliate thereof.

The Sub-fund may use financial derivative instruments traded on a regulated market for hedging or investment purposes. The Sub-fund may only use OTC derivatives for hedging purpose.

The Sub-fund's benchmark is a basket of three indices: the Stoxx 50 (net dividend reinvested), ICE BofAML Euro Broad Market Index and ICE BofAML Euro Treasury Bill Index (the "**Benchmark**"). The Benchmark is solely used as a reference to compare the performance of the Sub-fund but not for the construction or choice of constituents in the portfolio. For this reason, the Sub-fund's portfolio might differ from the Benchmark.

Recommendation: Minimum recommended holding term is five years.

Income arising from the Sub-Fund will be accumulated. No dividend will normally be distributed.

The currency of the Class is EUR.

This Class is reserved to retail investors.

The shares of the Sub-fund are redeemable on demand and dealt with on a daily basis.

Risk and reward profile

This risk indicator is calculated using historical data, which cannot be used as a prediction for the future risk profile of the Sub-fund. Therefore, the risk and reward category shown is not guaranteed to remain unchanged and the categorisation of the Sub-fund may shift over time. Even if the Sub-fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

At this time, the level of the risk and reward profile is estimated to be a SRRI category of 4, due to the nature of its investments, which include the following risks:

- **Interest rate risk** – the risk that an investment's value will change due to a change of interest rates.
- **Liquidity risk** – the risk arises when a particular security is difficult to purchase or sell. In principle acquisitions for the Sub-fund must only consist of securities that can be sold at any time. Nevertheless, it may be difficult to sell particular securities at the required time during certain phases or in particular exchange segments or due to the deterioration of the economic situation.

There is also the risk that securities traded in a tight market segment may be subject to significant price volatility.

- **Counterparty risk** – the Sub-fund may enter into transactions with contractual partners, which will expose the Sub-fund to the credit of its counterparties and their ability to satisfy the terms of such contracts. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-fund.
- **Credit risk** – the Sub-fund may invest a portion of its assets in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.
- **Derivative risk** – the Sub-fund may use financial derivative instruments which may add volatility to the performance of the underlying securities and involve unusual financial risks.

- **Operational risk** – which may occur due to technical issues for example natural disasters, misunderstandings and fraud.

Charges

The charges paid by the investors are used to pay the costs of running the Sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest
